

Transforming your palliative and end of life care programme

Marie Curie is working in partnership with the Health and Social Care Board and local partners to design and deliver high quality end of life care. Home nursing

The Northern Ireland-wide ***Transforming your palliative and end of life care programme*** aims to design and support the delivery of co-ordinated services to enable people with palliative and end of life care needs to have choice in their place of care, greater access to services and improved outcomes at the end of their lives.

This two-year programme will support the implementation of *Transforming Your Care* recommendations in Northern Ireland. The programme is based on the Delivering Choice methodology developed by Marie Curie which uses a whole systems approach to improve care and outcomes.
