[Health and Social Wellbeing Improvement](#)

The Sunbeds campaign communicates the long term health effects of sunbeds, including skin cancer and pre-mature ageing, to sunbed users and the wider public. Particularly those under the age of 35 who are at an increased risk of developing melanoma skin cancer from sunbed use. For more information on this issue visit www.careinthesun.org

The sunbeds campaign poster highlights that using a sunbed before the age of 35 increases your risk of skin cancer by up to 75%.

Details

Format

A3 poster

Target group

All sunbed users
