Health and Social Wellbeing Improvement

This leaflet will tell you what to look for in new blinds and how to make existing blinds safer.

The leaflet was produced by the British Blind and Shutter Association. The BBSA is the UK's only trade association representing companies that manufacture, supply and install interior and exterior blinds, awnings, security grilles and shutters. The BBSA launched the Make itSafe campaign in 2009 and has campaigned for safer blinds so welcomes mandatory standards for internal window blinds. To see more about the BBSA's Make it Safe campaign visit: www.makeitsafe.org.uk

Advice in this brochure and the Make it Safe campaign is supported by:

The Royal Society for the Prevention of Accidents. RoSPA's mission is to save lives and reduce injuries in all areas of life and has achieved significant changes through its campaigning work over the 90 years since its inception. www.rospea.com

and the Child Accident Prevention Trust, a leading UK charity working to reduce the number of children and young people killed, disabled or seriously injured

Details
