### Dear Parent

All children in pre-school are being offered a review by the health visitor who visits the school.

This is a significant time in your child's life. It is important that your child learns to be confident, trusting, curious and able to develop relationships and learn.

As part of the 3+ Review we would like you to complete the enclosed Ages and Stages Questionnaire (ASQ). This will provide information on your child's social and emotional development. Your answers will show your child's strengths and any areas in which your child may need more help or practice. You and your child will also be invited to a review meeting with the health visitor to discuss your child's development.

It's really important that your child enjoys learning and the more you know about your child's health and development the easier it is for you to help them.

If your child is already getting support from various health and education services we would still encourage them to be involved in the 3+ Review.

This letter is sent to parents about the 3+ Review.

There is also a shorter letter and translations for parents whose first language is not English.
