Health and Social Wellbeing Improvement

This poster encourages people to check the UV index to find out how strong the sun is each day, and to protect their skin from the sun if the index is higher than 3.

It was produced and distributed to participating pharmacies as part of the Living Well campaign, which covers up to six health promotion topics each year. Living Well campaign topics are agreed between the HSCB, Community Pharmacies NI and the PHA. The original poster was created as part of the [Care in the Sun](#) campaign, which was a partnership between the PHA and Cancer Focus.

## Details

Format

A3 poster

Target group

General public
