Health and Social Wellbeing Improvement

This poster highlights the steps you should take to protect your skin from too much sun, which can increase your risk of skin cancer.

It was produced in A3 and A1 formats, and distributed to participating pharmacies as part of the Living Well campaign, which covers up to six health promotion topics each year. Living Well campaign topics are agreed between the HSCB, Community Pharmacies NI and the PHA. The original poster was created as part of the [Care in the Sun](#) campaign, which was a partnership between the PHA and Cancer Focus.
