

Health professionals can access key information about vaccination programmes, guidelines, publications, and training materials using the sections below.

Vaccination policy

The Department of Health (DoH) is responsible for developing vaccination policy, based on recommendations from the Joint Committee of Vaccinations and Immunisations (JCVI). The JCVI includes representatives from all Devolved Administrations.

- Policy documents: available on the [Department of Health website](#).
- The Green Book: Immunisation against infectious diseases (commonly known as the [Green Book](#)) provides authoritative guidance on vaccination policy and practice.

Training and programme resources

[Vaccine programmes guidance, resources, special cases](#)

General professional information

- [Green Book](#)
- [Vaccination of individuals with uncertain or incomplete immunisation status](#)
- [PHA immunisation resources for health professionals](#)
- [Childhood immunisation programme: full details](#)
- [Guidance on vaccine handling and storage in Primary Care including maintenance of the Vaccine Cold Chain](#)
- [Translated immunisation invitation letters](#)

Childhood vaccination programmes

Immunisations for infants (aged under 1 year) and children (aged 1-2 years)

- Includes: Diphtheria, tetanus, pertussis, polio, hepatitis B, Hib, MMR, Men B, Men C, pneumococcal, rotavirus, BCG, influenza
- Resources: [Childhood immunisation programme](#)

Pre-school immunisations (aged 2-4 years)

- Includes: Diphtheria, tetanus, pertussis, polio, MMR

Immunisations for 12-13 year olds

- Includes: Diphtheria, tetanus, pertussis, polio, MenACWY, MMR, HPV
- [Factsheet on MenACWY immunisation for teenagers](#)
- [Factsheet on HPV vaccine for children in Year 9 and 10](#)
- [HPV vaccine training slides 2019 15_8_19.pptx](#)

Specific vaccine information

MenACWY

- [Factsheet on MenACWY immunisation for teenagers](#)

Men B

- [Meningitis B immunisation](#)

Pertussis (whooping cough)

- Includes: Infants, pre-school aged children and pregnant women
- [Pertussis \(whooping cough\) immunisation](#)

Rotavirus

- [Factsheet on rotavirus immunisation](#)

Targeted programmes

BCG (tuberculosis)

Hepatitis B

- Includes: Universal hepatitis B programme and hepatitis B vaccine for at risk babies
- [Clinical guidelines on hepatitis B](#)

Influenza (flu)

- Includes: Children, adults, pregnant women and healthcare workers
- [Flu resources for professionals](#)

HPV vaccine

- Includes: Gay, bisexual and other men who have sex with men (GBMSM)

Pregnant women

- Includes: Flu, pertussis, MMR, hepatitis B and syphilis advice

Shingles

- [Factsheet on shingles vaccination](#)

Splenectomy

- Includes: MenACWY, pneumococcal, flu
- [Factsheet on splenectomy](#)

Travel vaccines (National Travel and Health Network, Travax)

- [NATHNAC support for those providing health information to people going travelling](#)
- [Travel health information from TRAVAX](#)

Vaccination guidance for special cases

Guidance for health professional in cases of patients vaccinated in other countries or with uncertain vaccination history.

- Managing incomplete immunisation histories using UKHSA algorithm [training video](#) and [presentation PHA incomplete vaccination slides](#).
- [Vaccination of individuals with uncertain or incomplete immunisation status, Public Health England](#), one-page summary to help health professionals

vaccinate people correctly to protect them and their families from disease.

- [United Kingdom and international immunisation schedules comparison tool, Public Health England](#), to help health professionals ascertain vaccines individuals moving aboard may have received.
- [Vaccine schedules in all countries of the European Union, European Centre of Disease Control](#), an interactive tool that shows vaccination schedules for EU/EEA countries.
- [WHO link on vaccine programmes](#)
- [Northern Ireland Health and Social Care Interpreting Service \(NIHSCIS\), Business Support Organisation](#)
- [Translated immunisation invitation letters, Public Health Agency](#)

Flu vaccination programme 2024-25, Preschool

Flu vaccination programme 2024-25

- [Flu presentation - Adult 2024.25.pptx](#)
- [Flu vaccination programme - childhood presentation 2024.25.pptx](#)
- [Click here for seasonal flu training for health professionals](#)

Preschool vaccination programme

[Routine childhood immunisation programme poster](#)

[Childhood immunisations: general guidance information on delivery](#)

PHA Immunisation training slides:

- Hexavalent Combination Vaccine (6 in 1) Diphtheria, Tetanus, Pertussis, Polio, Haemophilus influenzae type B and Hepatitis B (DTaP/IPV/Hib/HepB)
- Rotavirus Vaccine
- Pneumococcal Conjugate Vaccine
- Meningococcal B and C Vaccines
- Measles, Mumps and Rubella (MMR) Vaccine
- DTaP/IPV Booster Vaccine (preschool booster)

PHA Health Professional factsheets:

- Hexavalent DTaP/IPV/Hib/HepB Combination Vaccine (6 in 1)
- Rotavirus Vaccine factsheet for Healthcare professionals (Immunisation)
- Pneumococcal Conjugate Vaccine
- Meningococcal B immunization Programme- Factsheet for Healthcare professionals
- MMR Vaccine advice
- DTaP/IPV Booster Vaccines (preschool booster)

Targeted programmes: COVID-19 boosters, combined COVID-19 and flu, RSV

COVID-19 boosters

[PHA Covid-19 vaccination for children training slides 27.09.24](#)

[Operational update on COVID-19 booster for 16 & 17 yr olds 2024-25](#)

Combined COVID-19 and flu

[Covid-19, flu programme delivery model planning letter Autumn 2024-25](#)

RSV

Publications and training materials:

Training materials:

- [RSV vaccination training slides maternal programme for infant protection 08.2024](#)
- [RSV vaccination training slides adult programme 08.24](#)

RSV publications:

- [Your guide to the RSV vaccine for older adults | HSC Public Health Agency \(hscni.net\)](#)
- [Protect your baby from RSV bronchiolitis with your RSV vaccine from week 28 of your pregnancy | HSC Public Health Agency \(hscni.net\)](#)

Specialised training and learning (HPV, measles, pregnancy)

Webinars (HPV, measles - parental, teachers, and the pregnancy)

Covering topics such as measles, pregnancy, parental guidance, and teacher focus resources.

Teachers webinars

- [HPV promotional video Schools 2024.pptx](#)
- Teenage vaccination: information for teachers (video)
- **Measles Awareness Session** provides guidance and information to promote and educate around Measles, MMR and the catch-up campaign.
- Measles Cases Europe [Measles on the rise in the EU/EEA - 16 February 2024 \(europa.eu\)](#).
- Measles Cases Europe [A 30-fold rise of measles cases in 2023 in the WHO European Region warrants urgent action](#)
- Measles cases England - [National Measles Standard Incident - measles epidemiology \(from October 2023\) - GOV.UK \(www.gov.uk\)](#)

- Measles cases Northern Ireland - [Measles | HSC Public Health Agency \(hscni.net\)](#)

Pregnancy webinars

- [PHA Pregnancy Webinar- Final 25.10.24 \(005\).pptx](#)

Parental webinars

- General childhood immunisation: [webinar for parents](#)
 - [Bulgarian Romany - webinar.pdf](#),
 - [Romanian Romany - webinar.pd](#)

Patient Group Directives (PGDs)

The PHA and Health and Social Care Board (HSCB) PGD Development Group have adapted Public Health England national PGDs for use in Northern Ireland, with their permission. They can be used to facilitate the delivery of Immunizations in HSC, in line with national recommendations.

Currently PGDs for Regional Immunisation Programmes are accessed on the HSCB Integrated Care or Trust Intranet websites.

E-learning modules

The [e-learning for health \(e-lfh\)](#) general immunisation modules provide training for many of the standards outlined in the National Minimum Standards and Core Curriculum for Immunisation Training for Registered Healthcare Practitioners:

- Immunology & Assessment
- Communicating with patients, parents and carers
- Legal Aspects & Assessment
- Vaccine Storage & Assessment
- Vaccine Administration & Assessment

Health professionals working in Health and Social Care (HSC) in Northern Ireland can access e-lfh immunisation modules with their hscni.net email address.

Standards and core curriculum for immunisation training

The [National Minimum Standards and Core Curriculum for Immunisation Training for Registered Healthcare Practitioners](#), February 2018, provide minimum standards and the core curriculum for health professionals requiring training in vaccinations.

Immunisation documents previously published by the Royal College of Nursing (RCN) have now been incorporated into this document. The Public Health Agency endorses the advice and recommendations provided.

[Storage and handling](#)

Vaccine handling and storage guidance for primary care settings.

The PHA and HSCB have jointly produced regional guidance for General Practices for safe and effective [handling and storage of vaccines](#).

[Social media resources](#)

Access [social media resources for vaccination programmes pages to promote vaccination programmes on your channels](#).

Use the social media assets and messaging below to spread awareness and promote vaccination programmes running in Northern Ireland.

Check Public Health Agency's social media channels, subscribe to stay up-to-date on the latest vaccination programme campaigns:
