[Health and Social Wellbeing Improvement](#)

In recognition that mental ill health is one of the greatest challenges facing both society and services, the Department of Health published the **Mental Health Strategy**, 2021-2031, in June 2021.

The Strategy sets out 35 actions under three overarching themes:

- Theme 1 - promoting mental wellbeing, resilience and good mental health across society;
- Theme 2 - providing the right support at the right time; and
- Theme 3 - new ways of working.

The Public Health Agency co-ordinates a collaborative approach to implement the action plan led by a cross sectoral Steering Group and Sub Groups with membership from; a range of government departments, health and social care, the community and voluntary sector and academia.

Additional information

**Conference:**

Mind the Gap: tackling mental health inequalities using public mental health approaches to close the gaps

As part of the work to deliver on Actions 1 and 2 of the Mental Health Strategy the Public Mental Health Learning Network is hosting a Conference which will focus on the theme of Inequalities in Public Mental Health.
