[Service Development and Screening](#)

This leaflet highlights how regular cancer screening can help detect certain cancers even before you have symptoms. If cancer is found early, treatment is more likely to be successful.

The leaflet was produced and distributed to community pharmacies that deliver the Living Well service. Living Well is a community-based pharmacy service offered in over 500 pharmacies across Northern Ireland. It is delivered in partnership with the Public Health Agency, Community Pharmacy NI, and the Department of Health.
